Work through key feature flags, and skip messages if a feature has been already adopted.

# Trial Expiring

```
{% if user.tracked_users == 0 %}
```

Your [Userlist.io](#) trial ends on {{user.trial\_ends\_at | date: "%A, %b %d"}}. Sadly, we don't see any user data in your account yet — so please let us know if you'd like to extend your trial for another two weeks.

If we don't hear back from you anytime soon, we'll go ahead and charge your card on {{user.next\_billing\_at | date: "%A, %b %d"}}. If you'd like to cancel, you can do this anytime in [Settings](#).

```
{% else %}
```

Looks like your [Userlist](#) experience has been going well and you've already started tracking your user behavior.

This is a friendly notification that we'll start charging your card on {{user.trial\_ends\_at | date: "%A, %b %d"}}, on a plan matching your {{user.tracked\_users | default: "number of"}} users (see our [pricing page](#) for reference).

If you'd like to cancel, you can do this anytime in [Settings](#).

```
{% endif %}
```

Use Liquid conditions to customize message text based on adoption status.
